WELCOME MARINES!

From July 1994 to July 1998, I spent my time in the biggest gun club on the planet, The United States Marine Corps. I give credit to the Corps for making me the man I am today, but a large part of that four-year experience was made possible by the Marines I served with. We worked hard together, trained hard together, and of course, played hard together.

If you ever wonder what makes the Marine Corps the fierce fighting force that it is, every Marine will tell you that it is the bond that we share. Since the spurring of social media, the Marines of MCAS Tustin, Ca. have been able to reunite digitally. Over fifty of us to be precise. However, on the weekend of the Solar Eclipse, many of us will be reunited at Poor Farmer's campground. In just a few days, a dozen of our nation's finest will be sitting around a campfire, drink in hand, reminiscing about old times, racking our brains to remember names and ranks, but most of all, feeling like we are twenty-year-old Marines again, ready for anything the world has to throw at us... instead of the middle-aged, soft-bodied, pukers that we have all become.

I would like to give a special thanks to my good friend Jimmy Weaver. He will be here the eclipse weekend helping me with the campground so I can spend time with my brothers, even with his birthday being on Saturday the 6th. Here's to a few good men who are traveling from all over the U.S. to spend the weekend at Poor Farmer's RV. May the weather be pleasant, the time move slowly, and sharpies remain capped.

Patriotic Sidebar

I would like to remind everyone that you have a United States Marine veteran running this place and special considerations need to be strictly adhered too when it comes to flag etiquette. I have brothers who have paid the ultimate sacrifice for our nation, which is represented by those stars and stripes. We don't let the American Flag touch the deck, we don't throw old flags in the trash, we don't display the flag upside down (unless there is an emergency), and we do not display tattered flags.

If your flag is tattered in any way, please bring it up to the parts store and I will make sure they get disposed of properly. Then when you go to purchase a new flag, for the love of God, please buy one that is made in America! Taking care of the symbol of our freedom is only the first step in retaining our freedom. God Bless America and Semper Fidelis.

Pool Farmer's RV Service

Star Wars Day

Labor Rate

\$125.00/Hr

May 3rd and 4th!

May the 4th be with you... and the 3rd! Power down your droids, holster your light sabers, and let our Rebel Service Department take care of the maintenance on your spaceship, or your RV, whichever you have. The Rebel Service Department will be open Friday May 3rd and on call Saturday May 4th. Obi-Wan flew in from Tatooine and slashed the service rate to \$125/hr for all repair orders started within those two days.

Please remember that "most" service work can be done at your campsite. Also keep in mind that we have a "Summerization" special! \$99+tax if we winterized your unit in 2023, or \$150+tax if we didn't. This includes a multiple-point maintenance and safety inspection, and it can be done right at your campsite.

Call Justin at (937)368-2449 to set up an appointment!

If you are camping with us again this year on a permanent site and have not paid for your seasonal fee yet, please do so. I will be making calls next week to those who have not paid yet. For those of you who have already contacted us to let us know, thank you.

-Mike

This is a vacuum breaker. These stop the water in your camper from being reintroduced back into the system. We call them backflow preventers. Do not take them off.

Backflow preventers are required by Miami County to be on every spicket in the campground. If we find that your site is missing one, we will put one on and you will be charged for the one that's missing.
